Re: Delta Mine  
ACT/015/020  
Emery County, UT

Dear Mr. Thompson:

This letter is in reply to your letter of May 23, 1978.

The maps referred to in your letter have been delivered to you on this day.

A further plan on underground workings will be presented when we have completed the removal of the overburden and a more accurate determination can be made of the extent and plan of underground mining.

We accept the tentative proposal of the reclamation bond of \$7,440.83 as determined by your department and will pay the recommended \$207 per month into the escrow account as soon as the bond is approved by the Board.

Operator agrees to comply with the mining and reclamation plan (Form MR-2) and the "Changes and Additions to the General Rules and Regulations adopted by the Board of Oil, Gas, and Mining on March 22, 1978" and the original Rules and Regulations. A variance will be requested on the Wingate Cliff portions of the affected area as it relates to fences and backfilling of highwalls, as provided in Rule M-10 (2) (e) and (5) on the grounds that these are not needed and because of the formation and vertical position of the Wingate formation.

The original Form MR-2 returned for notarizing will be immediately notarized and mailed to you.

Yours truly,

UTAH WEST MINING & DEVELOPMENT, INC.
